

About Us

WA Super is a Western Australian based industry style super fund available to anyone who is eligible to have a superannuation account. We manage over \$2.6 billion of retirement savings for around 40,000 members and have been around for over 25 years.

We hold a 'MySuper' licence from APRA which means WA Super is able to be nominated as a default fund. Over 4000 Western Australian businesses contribute to WA Super on behalf of their employees.

Our vision

WA Super's vision is to deliver a comfortable retirement for our members. A comfortable retirement is about much more than just having the financial means to live adequately. It's about knowing and understanding your retirement savings, feeling safe that the organisation at the other end of the phone, on the other side of the desk or in a meeting room, is acting in your best interests.

It's about trust and confidence in the hands of the provider.

Our approach

WA Super has a holistic approach to delivering a comfortable retirement for our members. We provide high quality service, education and advice to help our members understand their super, to have confidence in us and make informed choices. We go the extra mile in administration to make life comfortable for our members, to make it easy, making sure the money gets to the bank at the right time, and to make sure contributions go to the right place.

We put the effort in to make it hassle free. We ensure insurance claims are handled compassionately whilst making the process as painless as possible for the member. All of this shows that ensuring our members have a comfortable retirement is about so much more than just delivering financial adequacy.

This holistic attitude and approach to retirement comfort is our point of differentiation, our competitive advantage and answers the question - "Why WA Super?"
